## THE VILLAGE BOUTIK

Authentic and revealing exceptional flavours, the collection of L’Aventure du Sucre embodies the Mauritian spirit and expertise. Thus, at the Village Boutik, only tasty local products are spotlighted : exceptional unrefined sugars, tea, jam and honey, sweets, five star rums and spices.

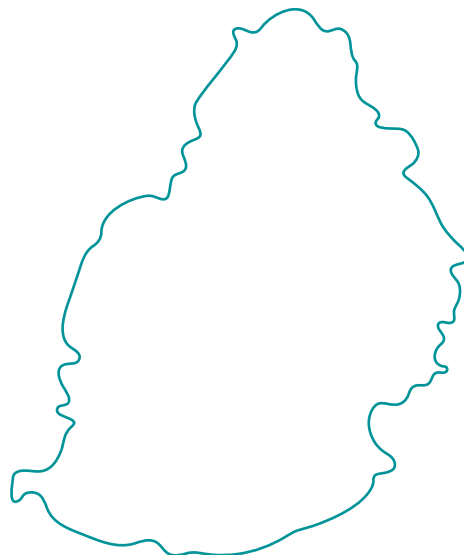

L’Aventure du Sucre creates and develops its products in partnership with Mauritian skilled crafters so as to participate in the conservation of a timeless know-how. This ancestral knowledge passed on from generation to generation is an intangible heritage that is part of the culture of our island.

## THE MADE IN MORIS LABEL

L’Aventure du Sucre is the first cultural and creative site awarded the Made in Moris label, achieving an impressive score of 90% of the required criteria, including the United Nations Sustainable Development Goals.

The entire experience is award-winning : a journey that includes the museum, the boutique (featuring unrefined sugars and rum), and the restaurant. Each of these components promotes Mauritian culture and supports the country’s economy. L’Aventure du Sucre takes pride in the ecosystem it has created with its partners (companies, farmers, artisans, artists, and associations), which gives every visitor the opportunity to support Mauritian producers, perpetuate their expertise, and protect local jobs.

Made in Moris certifies the quality and local origin of a product or service, thus highlighting Mauritian craftsmanship. It is a true mark of excellence that aligns with the commitments of L’Aventure du Sucre !

## A SUSTAINABLE ENDEAVOUR

### Preserving our heritage

L’Aventure du Sucre preserves an architectural, industrial, and natural heritage that has been linked to human activity for five centuries. The museum pays homage to those who established a multifaceted culture in this region, recognising the value of its precious sugar cane and ensuring the sector has evolved at the forefront of the agro-technological and energy transitions. The site is also committed to raising public awareness of sustainable development through temporary exhibitions and educational workshops. At last, more than 300 Mauritian and regional products are offered as souvenir gifts at the Village Boutik, giving visitors the opportunity to support local producers and perpetuate their know-how.

### Sharing our culinary and gastronomic heritage

Gastronomy is an integral part of Mauritian heritage and is celebrated at L’Aventure du Sucre. Our Village Boutik offers tastings of some thirty local gourmet products that form part of the island’s identity. Continuing the sensory experience, Le Fangourin restaurant offers healthy and delicious Mauritian cuisine, 100% home-made, with dishes that look just as good as they taste. Short supply chains, our organic vegetable garden, and the recycling of our food waste underpin our commitment to a sustainable reduction of our environmental impact.

### Promote quality education and support art and culture

Our mission is to make culture accessible to as many people as possible. Initiatives are designed to include those for whom culture is difficult to access for economic, social or disability reasons. L’Aventure du Sucre is also committed to offering spaces that promote meeting, sharing and self-expression, and to supporting Mauritian artists – key players in a vibrant and dynamic culture. Events such as collaborative workshops, concerts, festivals, film screenings, exhibitions, and debates are offered regularly.

SUGARS

A selection of eleven unrefined sugars are offered, each preserving the nutritional values of the sugarcane.

They are presented in handy 300g packs, designed for easy storage and use.

Ideal for adding a natural touch of sweetness to beverages, desserts, fruit preparations, and marinades.
